🪪 PROFILE

Experienced Frontend Developer skilled in React.js with a passion for crafting seamless user experiences. Proficient in modern web technologies including HTML5, CSS3, and JavaScript. Proven track record in developing responsive, cross-browser compatible applications. Strong understanding of RESTful APIs and state management libraries such as Redux. Committed to staying updated with the latest industry trends and best practices. Effective communicator and team player, adept at collaborating with cross-functional teams to deliver high-quality solutions.

🧠 SKILLS

HTML/HTML5 • CSS/CSS3 • Javascript • React JS • Redux • Tailwind CSS • Git & GitHub

📂 PROJECTS

Recipe Finder Website
Live:- https://fairfoods.netlify.app 🔗
GitHub:- https://github.com/Lucky12-call/recipe-finder-reactjs.git 🔗
Developed a Recipe Finder website aimed at enhancing culinary exploration. The platform features intuitive navigation, allowing users to easily explore various recipe categories directly from the homepage. By clicking on a category, users instantly access a dedicated page showcasing all recipes within that category. Additionally, users can streamline their search by browsing recipes alphabetically. Each recipe page provides comprehensive details, including ingredients, step-by-step instructions, and links to corresponding YouTube video tutorials.

Weather Web-App
Link:- https://joyful-youtiao-290708.netlify.app 🔗
GitHub:- https://github.com/Lucky12-call/weather-web-app-reactjs.git 🔗
Developed a weather web application enabling users to retrieve real-time weather data for any location worldwide. The application allows users to search for weather information by city and country, displaying live data such as temperature, humidity, wind speed, and visibility. It provides an intuitive interface for accessing accurate and up-to-date weather details.

🎓 EDUCATION

Bachelor in Computer Application.,   Aug 2019 – May 2022
Singhania University, Jhunjhunu.
